

Sample Letter to the Senator 1

Dear Senator -

I am writing to ask you to vote no on the upcoming Employee Free Choice Act, also known as Card Check. In researching this, I have come to believe that the implications of this piece of legislation would be terrible for the country and in particular for North Dakota.

EFCA would allow union leadership to determine when and if secret ballot elections would be held in the workplace. In a state where unions are barely on the radar and employers take good care of their employees, employees would be coerced into joining unions and employers would lose the opportunity to work directly with employees to negotiate compensation.

Please do the right thing for your North Dakota constituents. Vote no on EFCA and ensure that workers maintain their rights and North Dakota can continue to add jobs within the state rather than losing jobs overseas.

Thank you for your time and for voting NO on card check.

Sincerely,

Name
