

### Letter to the Senators 3

Dear Senator \_\_\_\_\_,

Please vote NO on the Card Check legislation, also known as the Employee Fair Choice Act, coming before you soon. If anyone ever proposed to deny voters a secret ballot in presidential, congressional or local elections the nation would rise up in protest. The suggestion itself is ludicrous. So please stop this from happening to workers voting on their fates in the workplace.

I believe this legislation is bad on a national scale, but it would be particularly crippling in North Dakota. We should not do anything to hinder job creation in our state or in this country. Increased unionization will do just that. More importantly, denying workers the right to a secret ballot election is a violation of basic democracy.

Thank you.

Sincerely,
