

Sample Letter to the Senators 2

Dear Senator -

I am writing to ask you to oppose the flagrantly misnamed Employee Free Choice Act. Workers would get a forced choice rather than a free choice if this law is passed. EFCA would do away with secret ballot elections during union organizing drives in workplaces nationwide.

Where would America be without the privacy of the voting booth? If voters' choice of candidates were made open to the public and to party leaders, they would be subject to coercion and the pressure of their peers and party leaders.

Thanks to this fundamental principle of American democracy, North Dakotans can vote their conscience. Please don't take that same right away from workers looking to vote on union organization.

I am asking you to stand with your constituents rather than your party and vote no on this undemocratic bill.

Sincerely,

Name
